strawberry husk bag topper - print on green paper

Directions: If making bag toppers, print one heart and one strawberry husk per bag. Strawberries can be printed on red or raspberry (deep pink) paper. If printing on red, you can add mini black upside down hearts with a black pen to represent the strawberry seeds or use the heart with

the mini hearts already added. If using raspberry paper, use the plain heart and glue on upside down red confetti hearts. Both are shown in the pictures enclosed.

To create the topper, fold the strawberry husk on the dotted line, then layer over one heart. Staple at the top of each side of the heart. Add additional tape across the back of the husk if needed so it will lay flat. Lay on top on bag and use a small hole punch to add a hole in the middle of topper. To create the vine, thread with half a green pipecleaner going through the bag. Twist to secure; then twist excess around a pencil to create curl.

If you are making a card (which can also be used as a bag topper), print 2 hearts and a strawberry husk. Fold the strawberry husk on the dotted line, then layer the two hearts inside the strawberry husk. Follow same directions as above.

Original hand drawn card. Heart cut with Ellison machine:

New topper with sequins
